

Name: **TITEMA**

Date of Birth: March 25, 1976

Age: 45

Disability: Down syndrome

About me:

People in the community always mock and laugh at me.

Most of my family loves me dearly. I do not know if all do, but I am loved.

I like to listen to music, sing and clean-up.

I love to be like my mother, Susannah B. Telewoda. She loves me very much and keep me happy.

My family wants me to be productive in what I am capable of doing; so that people can respect me and not laugh at me.

They are patient, kind and encourage me in my little efforts. I like to sing, care and give service to others; cleaning places by

keeping it neat and in order. I am opened to love those who love me. I withdraw from those who shun me.
